

Good morning

I very reluctantly left your hotel yesterday, having spent two wonderful days in glorious surroundings.

I realise, of course, that you have no control over the weather but the fact that the sun came out to play on both days just made it “heaven on earth”.

You have an idyllic setting and it was really difficult for me to drive away.

I cannot finish without also mentioning the staff:

Reception: very welcoming with lovely smiles and always willing to assist.

The Dining Room: I’m struggling to find the words that would give the credit to the “gang”, that you have here, that they deserve. They are nothing short of superb. Between them, they made what might have been a pleasant stay extremely enjoyable and very special. Absolutely nothing was too much trouble for any of them. I don’t know how or where you found these wonderful people but you should keep hold of them. I’ve stayed in some fabulous hotels over the years and have always been well looked after but your staff here get an A++++ from me. If I could grant a Certificate of Excellence then this group would get it. They are outstanding.

Please feel free to use the above as a review.
